BEAUTY IS IN THE DETAILS.

True CounterDepth

These freestanding refrigerators sit flush with the countertop, features hidden hinges, and discreet tucked away feet, all to give you a true built-in look and feel.

Adjustable FlexBar™

The industry first FlexBar™ utilizes typically unused space in the refrigerator, enabling you to organize your fridge in new ways. The FlexBar™ offers the ultimate in customization, and can be adjusted to sit in any of the shelf brackets, from top to bottom.

Dual Compressors & Evaporators

Dual compressors and dual evaporators offer efficient and precise cooling and humidity control, while significantly limiting odor transfer between the refrigerator and freezer, for the optimal freshness environment.

Interior Design Details

Our new freestanding counterdepth refrigerators are beautifully designed in both form and function with stunning LED illumination from corner to corner, and a cool stainless steel back wall.

Filtered Internal Water

Beautifully hidden inside, our dual-dispensing interior water lets you enjoy pure fresh water with the touch of a button or tap of your glass or bottle.

UltraClarityPro™ Water Filter

Our industry-leading water filter removes an astonishing <99.9% of sediments. So advanced, it's received certification by NSF, a leading regulatory agency.

Connected Refrigerators

Remotely monitor and control your Bosch refrigerator from your smartphone or tablet. Control the temperature, adjust lighting, run diagnostics—wherever you are, for ultimate convenience. Connected refrigerators from Bosch are designed to give you peace of mind, customization, and simplification.
